

 Arrocerías Pons	Quality and Environmental Policy	Edition: 6 Date: 14/05/26 Page 1 of 1
--	---	---

ARROCERÍAS PONS, SAU is engaged in the production and packaging of rice and rice derivatives at its plant located in Massanassa.

Based on the principle of SUSTAINABILITY, the Company Management's priority is to achieve the highest QUALITY for its products, the continuous improvement of its system, the authentic, wholesome and safe production of food, as well as the Protection and Care of the ENVIRONMENT, so that the expectations of customers and other interested parties are optimally met.

As a fundamental part of achieving these objectives, the General Management of ARROCERÍAS PONS, SAU undertakes to comply with legal and regulatory requirements, as well as those to which the Organization subscribes, adapting to regulatory changes as they arise, with a focus on prevention in Food Safety and Environmental Pollution.

To this end, the staff of the different departments will be involved in the processes related to the quality, wholesomeness, safety and legality of the product, thereby creating a culture of quality and food safety within the company, as well as respect for the environment around us.

The points on which we base our Quality and Environmental Policy are as follows:

- **Food Safety Assurance. Commitment to the safe production and distribution of food.**
- **Satisfaction of our Customers and Consumers.**
- **Minimization of significant environmental impacts (consumption, emissions, discharges and waste generation).**
- **Commitment to the preservation and optimization of natural resources.**
- **Protection of biodiversity and ecosystems.**
- **Professional ethics.**
- **Occupational safety.**
- **Continuous Improvement of the Management System and Environmental Performance.**

Arrocerías Pons also establishes measures to reduce food losses throughout all production stages, promoting their efficient use and sustainability. These include prioritizing human consumption and, ultimately, allocating them to other uses such as animal feed.

To ensure that this Quality and Environmental Policy is established, implemented and kept up to date at all levels of the Organization, the Company Management will provide the necessary means to ensure that it is fulfilled and understood by all staff, who will be continuously made aware of and trained in the use and improvement of all aspects of the Quality and Environmental System.

José Luís Pons

General Manager
